***Copyright Disclaimer**:* I don’t any characters of this fan fic otherwise I would be the richest person in the world. Sonic The Hedgehog, Tails, Dr. Robotnik and Bin the Dynamite Duck are owned by Sega Corporation as well as the OutRun series/Sega Soccer. DiC Entertainment owns Professor Caninestein, Professor Von Schlemmer, Andy Pandatelli, Spelunk Spelunker, Kevin Keene and Princess Lana. Disney owns Darkwing Duck and Launchpad McQuack. Nintendo owns Princess Toadstool. David Feiss created I.M Weasel and I.R. Baboon. ? created Usagi and Ami. Capcom - Mega Man, Konami - Simon Belmont. Last thing (phew) Ferrari - Ferrari.

My comments: Just came with this wacky story about Turbo OutRun but with depth. Note: Sonic and Tails would be their Adventures of Sonic The Hedgehog selves which would fill the gap between 7 Continents for One Robotnik and Tooth Pick Gator Private Eye. Serena in the story would be known as Usagi or Bunnie (which would be her pesudo translated name) and don't know too much about that show.

Turbo OutRun Racing

Chapter 0 - Qualifying

In the vast multicoloured world of Mobius, Sonic and Tails are running towards the Town of McGruffen where the Sonic Appreciation Day was held. Suddenly the blue hedgehog breaked hard on the ground since he saw a white piece of paper stuck on a cactus and eventually stopped. His best friend, the brown two tailed fox also stopped and read the note.

Tails asked, "What does the note say Sonic?"

"Dear my prickly pest, I have something to tell you. There is going to be a race but there is a rule, you must drive a Ferrari otherwise the orphanage near Gimmick Mountain Heights would be closed forever. The race is located in New York, North America. Signed Robuttnik", Sonic heavily replied as he picked up the note.

Tails exclaimedly spoke, "We gotta win that race, I don't want to see orphans in danger!"

"We're up, over and gone", shouted Sonic.

Sonic grabbed Tails' arm and ran towards the out of the screen which then they use the Dimension Hopper that Professor Caninestein invented in 7 Continents for One Robotnik to get to New York.

In the Palace of Power, Captain N and the N-Team are having a break from defeating Mother Brain and her coronies a week ago. Inside the magnificent built building, Kevin Keene who had a red jacket with an N stitched up on his left hand side and Simon Belmont are watching The Objection League which is a cartoon starring Wombatman.

Simon smoothly spoke, "Wombatman has finally became my favorite show again after that disappointing movie, Wombatman Wombegins."

"Okay Launchpad McQuack, should we play a game?" asked Kevin refering to Simon Belmont's looks.

Duke, Kevin Keene's dog barked while Princess Lana who wore a tiara and a white gown was bored.

Lana asked, "I think we should do something, like reading Carlos the Paperboy stories or going to Kongoland to give Donkey Kong a hair cut."

"That's a great idea Lana, except we need something new like a new land in Videoland or a new game for a Nintendo Entertainment System", replied Kevin.

However Simon Belmont was not exactly the type of person who would go on adventures. Simon spoke, "Count me out, I'm not going to Castlevania to count with The Count."

Suddenly the doors burst open with a green robot with a helmet rushing in. The other members of the N-Team were shocked with their jaws open.

Mega Man said, "Everyone we have some mega serious news from Dr. Wright."

"Go on", replied Princess Lana.

Kevin Keene would think that Mother Brain, Eggplant Wizard and King Hippo were terrorising Tetris while Simon Belmont would think that he came 1st has best Vampire Hunter.

Mega Man electronically spoke, "There is going to be a mega race in Turbo OutRunland which was made by our mega rivals, Mother Brain and company."

Kevin was thinking and yelped, "There is no Turbo OutRunland in Videoland!"

"Wait a mega minute, it is coming from a different dimension", replied Mega Man.

Princess Lana then went close to Mega Man and asked, "What are the rules?"

"The rules are that there must be a Mega man and a Mega woman in the red Ferrari and be careful of the other mega drivers", babbled Mega Man.

Kevin exclaimed, "That sounds like Rad Racer to me, are you coming Lana?"

The princess then giggled and nodded her head. However Simon Belmont being a bigshot interrupted and ran towards the standing trio.

"Fine I join you two, Captain Nonsense", sharply spoke Simon.

Kevin asked sarcastically, "Who is the person that wanted no adventures?"

"Simon Belmont, Mega Man and Kid Icarus must stay here to protect the Palace, just in case Mother Brain shows up" Lana

While in St. Canard, Launchpad McQuack was flying about
